PSG
PackSys Global

A Member of Brückner Group

Are you a writer with a passion for machines?

Who we are: We are the Indian subsidiary of **PackSys Global (Switzerland)**, a leading Swiss-based European manufacturer of packaging machinery – widely used in the oral care, pharmaceutical and personal care industries – and are now a member of Brückner Group, a German machinery conglomerate with diverse interests in manufacturing and services.

Our office is located on the Thane-Belapur Road in **Navi Mumbai**.

What we do: We make complete and comprehensive user documentation for all machines that are shipped from the factories of our group companies in Switzerland, Thailand and Germany.

Our documentation products include:

- **Operating and maintenance manuals**
- **Online parts ordering catalog (e-Service)**
- **Risk and hazard analysis documentation for our machinery**

We also provide engineering design services, and after sales customer services.

What we expect from you:

- A graduate or at least a diploma holder in any engineering stream, preferably in **mechanical or electrical/electronic engineering**.
- Quickly grasp the intricate design concepts underlying the safe operation of automated lines of machines.
- Write clear, precise and unambiguous instructions in grammatically correct English and in an engaging and coherent style.
- At least two years of experience in writing or updating user manuals for CE-norms-compliant complex machinery.
- Well acquainted with the entire spectrum of documentation process including translation of manuals and content management.
- A working knowledge of tools such as Adobe FrameMaker and MS Office.
- Some experience in documenting risk and hazard analyses of complex machinery.

What you can expect from us:

- A salary and benefits package that is comparable with the best in the industry, depending on your educational and professional achievements.
- An easy and informal work environment where you can work, learn and grow.
- Several opportunities to visit our factories at Switzerland, Germany and Thailand and interact with people of different cultures, ethnicities and languages.

Whom should you contact: If you can meet our expectations and if you are interested in working for us, please email your resume with the subject line – “Technical writers for PSG India” to
