

SPM

Fastest plastic closure TE-band finishing machine.

**PACKSYS
GLOBAL**

A Member of Brückner Group

For all slitting machines, high performance is a must. SPM is the fastest slitting/folding machine from PackSys Global. Running between 2,000 – 3,500 caps per minute, it matches the speed of the most modern cap production line. The SPM can be upgraded from 8 to 16 spindles to ensure whatever production speed is required; this slitting machine will meet customers' needs.

Ensuring consistent high performance

The innovative and well engineered machine design, combined with quality materials guarantees high product quality and a maximum lifetime.

The SPM is equipped with PackSys Global's Duraslit® knife. This hard-wearing, heated blade delivers the

- Fastest machine on the market – 3,500 caps/minute single line infeed
- Highest output per footprint
- Multiple molds feeding one machine
- Extended lifetime due to Duraslit® knife
- Modular design: gives flexibility in the process sequence
- Intelligent design for easy 360° access
- Reduced energy consumption and noise emissions

Technical data

Cap diameter	25 – 38 mm*
Cap height	8 – 20 mm*
Speed	2,000 – 3,500 cpm
Material	PP or HDPE*

* Other height, diameter or material on request.
